

The mind is the doorway to the future. It builds, analyzes, composes and creates. But to be completely effective, the mind must be stimulated and exercised. It must grow in knowledge and experience.

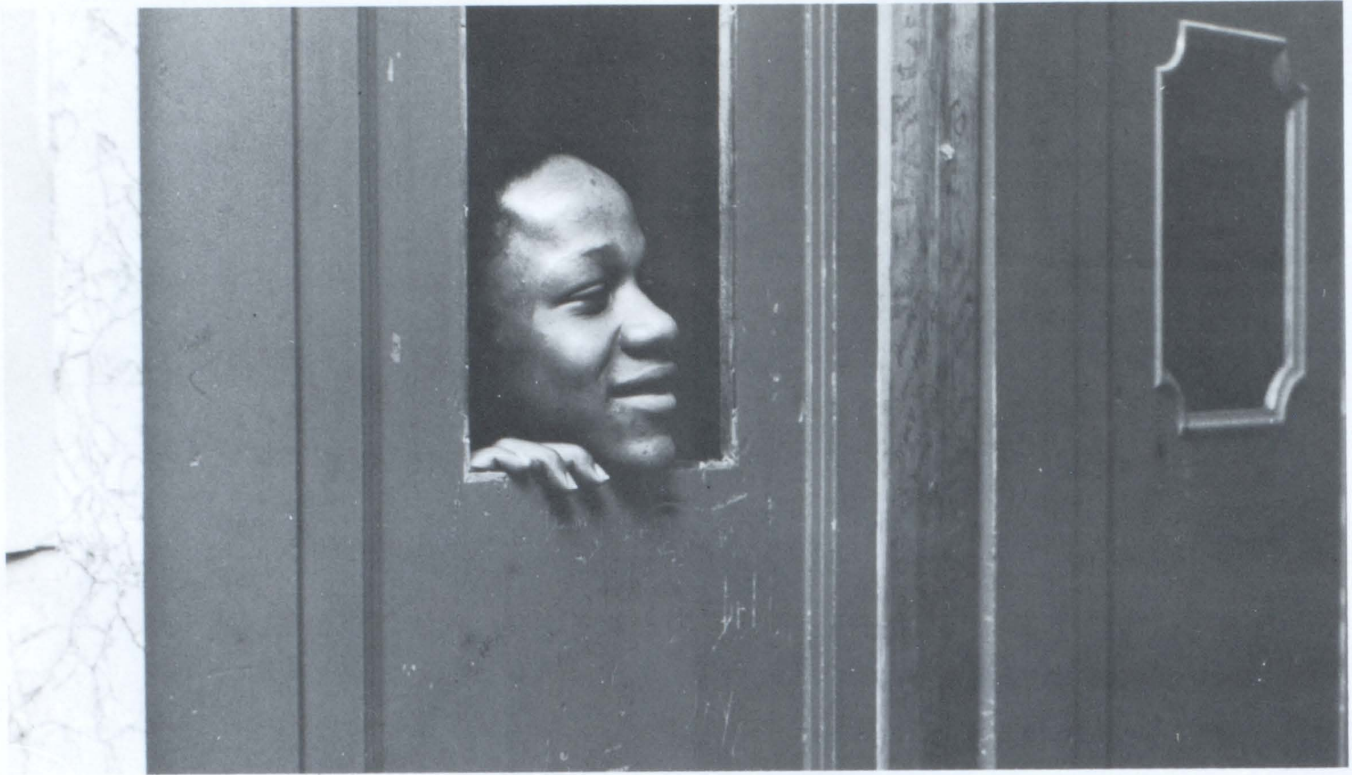

Our objectives then should be to heighten our levels of understanding and academic independence, to search for and discover our creative talents, and to develop these talents to the greatest extent. We should unite student achievement with planning and performing of normal high school functions and communicate through common channels the achievements of students, faculty, administrators and staff. But our greatest objective should be to send forth graduates who are socially, emotionally and intellectually ready, and who are proud to be identified as Weequahic High School Alumni.

Our school is making a change. So let us change with it. Let us think about the future. Let us stimulate and exercise our minds.

THE WAY WE WERE

During the past four years we, the Senior Class of 1975, have travelled a long road to reach an important destination. There were many obstacles, curves, and bridges that had to be crossed. It was a difficult journey. But with guidance and direction we found our way and reached our journey's end.

One man who has been instrumental in our achievements is Mr. Milton Kappstatter, Vice-Principal of Weequahic High School.

It is with deepest appreciation that we, the Graduating Class of 1975, dedicate this LEGEND to you, Mr. Kappstatter, for your many efforts and your dedication to the achievement of our goals.

As a young man Mr. Milton Kappstatter attended Central High School in Newark. He received a Bachelor of Science Degree from New York University in 1932 and a Master of Business Administration Degree from the Wall Street Division of New York University in 1937. Presently, he holds a Doctorate equivalency.

He began his teaching career at Barringer High School in 1935. In 1940 he taught at Ivy Junior High School. He then transferred to South Side High School where he was a teacher of Business Education from 1940 to 1941. In 1943 he transferred to Arts High School where he later became Chairman of the Business and Social Studies Department in 1955. He remained there until he transferred to Weequahic High School as Chairman of the Business Department in 1961.

In February of 1968 Mr. Kappstatter was promoted to Vice-Principal in charge of academic programs, scheduling, general school organization, senior class rank, graduation eligibility and diploma awards.

Mr. Kappstatter has devoted much of his time to professional organizations and committees. He was President of the Chairmen's Association of Newark, President of the High School Men's Association, a member of the Executive Board of The Business Teachers' Association, State Chairman of a committee for Economic Geography Course of Study, and chairman of a committee to draw up a course in record keeping in Newark. In 1972, he was the chairman of the Evaluation Committee of Weequahic High School, and was appointed by the Newark Teachers Union to chair the Subcommittee to investigate two educational programs.

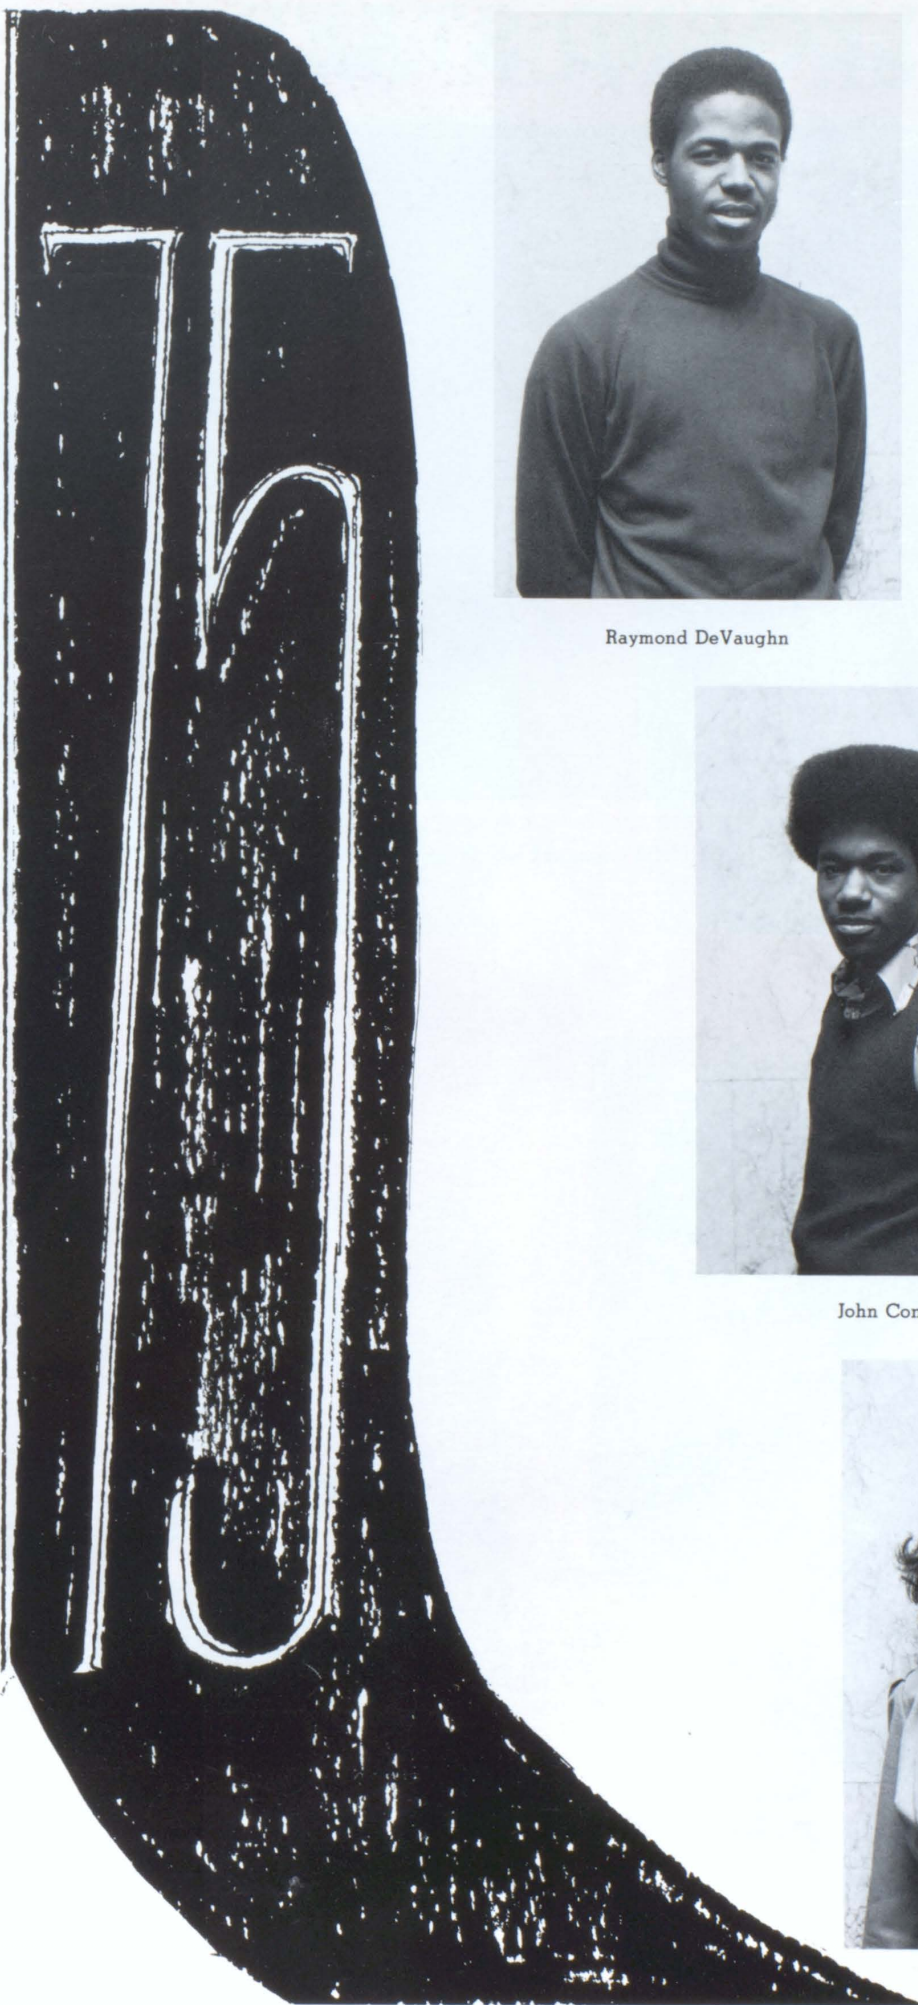

Mr. Kappstatter has also been active in the community, serving as President of the Beth Ahm Temple and as a member of the Board of Trustees of the Springfield Library. He has also found time to serve as a member of the Springfield Board of Education, the Boy Scouts, and as a devoted husband, father and grandfather.

Declaration of Dependence

I am a part of Nature
I am a part of everything that lives
I am bound together with all living things
in air, in land, in water.

My life depends upon nature
Upon its balance, upon its resources,
and upon the continuity of both.
To destroy them is to destroy myself.
As a member of the human race
I'm responsible for its survival
I am a part of nature
I will not destroy it.

CROSS-COUNTRY

The Senior Class of 1975 is unlike many of the graduating classes of previous years. This class will enter an already troubled world to be immediately confronted with the additional burdens of high unemployment and inflation.

These two monsters threaten the success of all graduating seniors across the United States, but they pose a particular threat to those who will graduate from high schools, city schools, mostly, like Weequahic, that reflect worst ills of our society.

To confront the problems of unemployment and inflation when one is just starting out can easily cause a young person to develop a distorted concept of life and may even cause him to give up his life's aspirations before he has properly begun.

There is no doubt that in all probability the graduates of 1975 will find it very difficult to find employment. Even if they are able to find work, salaries may not be sufficient to take care of all their needs.

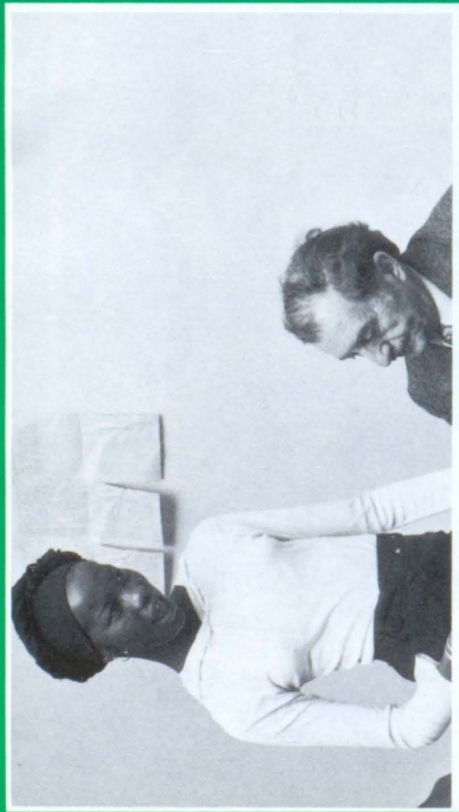

One good by-product of inflation and unemployment may be that more students than ordinarily would, will look to the colleges and universities as alternatives to a shrinking job market. If these institutions are also affected by economic conditions, that source of betterment may also be closed.

As a graduate of the class of 1975, your ability to get a job and hold it will have much to do with how valuable you are to your employer. Workers with only minimal skills are abundant and easily dispensable; while those with high skills and training are less numerous, less easily dispensable, and, therefore, more likely to succeed in life.

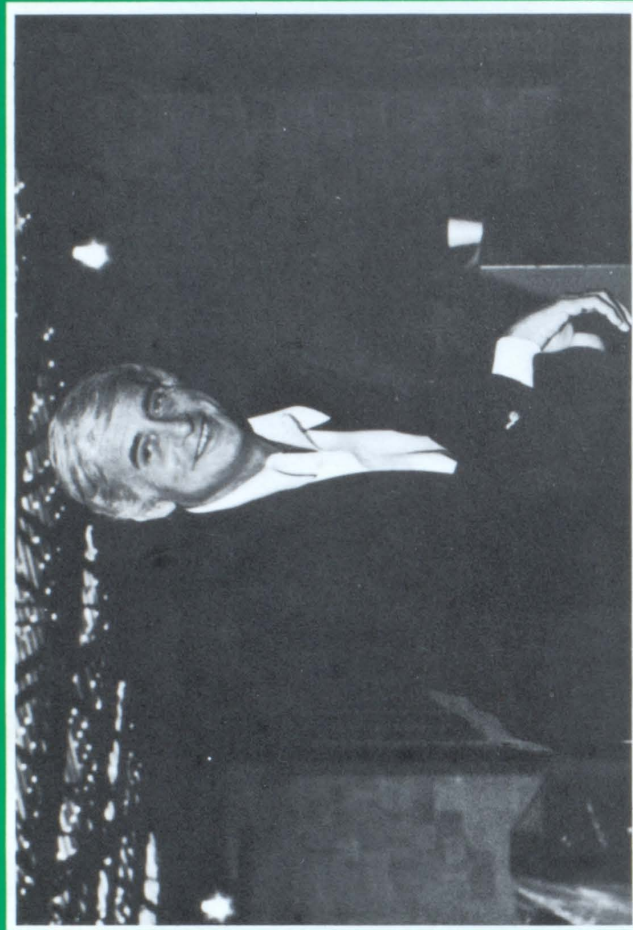

The real way to success lies in how valuable you make yourself to the world. Continued life-long education is the path you must take if you truly wish to increase the value of your existence for yourself and for others. Better times are coming; when they come will you be prepared to meet the challenge?

SENIOR ACTIVITIES

Dear Ms. Marcus and Ms. Jenkins,

We will never forget the car wash, the movies, the take-home dinner sale, the class trip and the senior prom. But most of all we will never forget that you, the senior advisors of 1975, made it possible.

Our accomplishments are, in part, the result of your patience, determination, and long hours devoted to making our senior year successful.

We wish to extend our deepest appreciation for being our advisors, teachers, and just plain friends. May the coming years be as rewarding for you as 1975 has been for us.

Sincerely,

THE SENIOR CLASS OF 1975

CREATIVITY

The man who follows the crowd, will usually get no further than the crowd. The man who walks alone is likely to find himself in places no one has ever been before.

Creativity in living is not without its attendant difficulties, for peculiarity breeds contempt. And the unfortunate thing about being ahead of your time is that when people finally realize you were right, they say it was obvious all along.

You have two choices: you can dissolve into the mainstream, or you can be distinct. To be distinct, you must be different. To be different, you must strive to be what no one else but you can be . . .

TO A NEGRO BOY GRADUATING

Be wary, lad; the road up which you go
Is long and steeper than you dare to think.
And since you leave in darkness, lad, be slow—
Test every spring before you bend to drink;
Learn now the rose may hide a hundred scars,
The welcome breeze may herald storms ahead.
And though your eyes would trace the course of stars
Or gaze on gray horizons growing red,
Let caution rule your step that you may see
The gaping pit, the waiting bog, the wall
Of white which you must scale. Go carefully
And hopefully; but if somewhere you sink or fall,
Remember where you walked you smoothed the way
That those who follow may discover day.

Eugene T. Maleska

SUPPLICATION

I am so tired and weary,
So tired of the endless fight,
So weary of waiting the dawn
And finding endless night.

That I ask but rest and quiet—
Rest for the days that are gone,
And quiet for the little space
That I must journey on.
